### The Orange Incorporation Bill.

No little capital was attempted to be made out of the fact that the necessary notice was not given in the official Gazette to enable the introduction of a bill to incorporate the Orange Society of Ontario. It was at once assumed that it was all a political trick, done in the interest of party, and not in the interest of the Order. Hon. C. F. Fraser, Commissioner of Public Works, was particularly severe and asserting that Mr. Merrick when he explained that it was an unfortunate mistake, he was only making an attempt to get out of the difficulty. Mr. Fraser, however, was not satisfied with this explanation, and he was determined to see that the bill was introduced. He was determined to see that the bill was introduced. He was determined to see that the bill was introduced.

Below we give copies of the communication of the Grand Secretary of Ontario West and his affirmation in the official Gazette. Also a copy of the letter sent to the Gazette requesting the publication of the notice. We have also received communication from the Grand Master of Western Ontario, the Grand Secretary of Eastern Ontario, and the Grand Secretary of British North America. They all agree that the necessary steps were taken by the Order to have the bill introduced in legal form at this session. We shall use every legitimate means to see that the bill is introduced, and we shall use every legitimate means to see that the bill is introduced.

LONDON, Feb. 1.

The debate upon the Government's motion

for a resolution to rescind the

Committee's recommendation to

Mr. Geo. Otto Trevelyan, Liberal member

for Harwich district, strongly supported

the Government's motion. The House was

not so full as last night.

Sir Robert Peel spoke in reply to Mr.

Trevelyan.

Mr. Robert Lowe followed. He denied

that the vote was necessary to strengthen

the Government. The whole object

of calling Parliament together had been

carefully concealed. The Government felt

that they had isolated the country, deprived

it of power to resist legislative and

resorted to the expedient of a money vote

to bolster up their influence and authority.

Mr. Bourke, Under-Secretary for the

Foreign Department, was not present, but

was represented by Mr. Cross, who spoke

in support of the Government's motion.

There might have been some question

Daily Intelligencer.

City and Vicinity.

**CITY COUNCIL.**—A regular meeting of the Council will be held on Monday night.

**BOARD OF EDUCATION.**—The Board will meet for organization on Tuesday evening.

**THE MARKET.**—The attendance this morning was large. Prices remained about the same figures as last week.

**FOURTH PAGE.**—On the fourth page of this day's paper will be found a summary of Thursday's debate in the Imperial Parliament on the supplementary credit of £30,000,000 asked by the Government.

**CHURCHES.**—The name of Miss Jones, who took part in the concert of the Harmonical Club on Thursday evening, was accidentally omitted from our notice of that entertainment.

**AMUSEMENTS.**—It is probable that several first-class theatrical companies will visit Belleville ere long, amongst others John T. Raymond and company and the Zingards.

**POLICE MATTERS.**—During the week no closing matters have been very quiet in police circles. Very few arrests have been made, and traps are not nearly so numerous as they were last season.

For the young, the aged, and the infirm, **SARNOY'S JAMAICA GINGER.**

Best family food at \$2.50 per 100 lbs at H. Corby, Jr., flour and feed store. He also sells all kinds of feed at proportionately low rates. **Indd**

**EYE AND EAR.**—It will be seen by advertisement that Dr. J. D. Stewart, the eminent oculist and aurist, is to visit Belleville again. He will remain at room No. 43, Dufresne House, for two weeks, commencing on Monday, 4th of February. **d&wf**

**M. E. TABERNACLE.**—The Rev. S. G. Stone D. D., editor of the *Canada Christian Advocate* will preach (D. V.) in the M. E. Tabernacle on Sunday morning next, and the Rev. C. S. Eastman in the evening.

**VENUE AGAIN.**—The Montreal *Advertiser* says: "Mr. Vennor sends us his address to the railway superintendents, which is to get their sympathies right. They will not have much time to spare after the first of February."

**A CENTENARY BONANZA, OR THE WHITE PATRIOTIC SOUP.**—Having tested this article to our satisfaction in removing grease from clothing, we do not hesitate to recommend to the people of this country, to be all it is represented. It is a most valuable article of the toilet, and we would advise everybody to buy a box and satisfy themselves that it is no humbug. For sale by Sargent, Spence & Co., proprietors. **11**

**MINISTERS' MEETING.**—The annual ministerial meeting in aid of the diocesan missionary fund was held in the building temporarily used by the congregation of St. John's Church for divine worship on Thursday night, and for that Christ Church last night. These meetings were addressed by Van Archeson, Parnell, of Kingston, and Canon Pettit, of Cornwall. The ministerial meeting for St. Thomas' parish will be held to-morrow night.

**CONCERT.**—The Misses Wenzels are to give a concert in the hall of Daniel's band on Tuesday evening next, 5th inst. These ladies have lately visited Nanapan, where they were well received. The *Beaver* says of them:—"The Misses Wenzels' concert on Monday evening was one of the best of its kind ever given in Nanapan, and all present appeared heartily to enjoy it. The numerous pieces on the programme were given in the most artistic style, and elicited many plaudits. These ladies excel in their rendering of Scotch melodies."

**OPERA HOUSE.**—Mrs. Morrison, supported by the entire strength of her company from the Grand Opera House, Toronto, will on Tuesday evening next, appear in the Opera House here, performing the new and pleasing play "Pink Domino," which recently met with great success in London and England. The company is an excellent one, and as they have recently performed the play to crowded houses in Toronto, the performance will no doubt be a most satisfactory one. Tickets can be procured at Harrison's.

**TABERNACLE.**—The *London Gazette* says: "On Wednesday afternoon last, about 4 o'clock, while Mr. James Clapp, of Foston, was returning from the station on the line, when opposite the residence of Mr. Wood, he, in the act of crossing a crack which he had driven in the morning, his horse broke through, precipitating all into the water. Mr. Clapp ran a very narrow escape from being drowned, having been in the water nearly three-quarters of an hour before assistance came. One of the horses was drowned—a valuable animal—and the other rescued with great difficulty."

**CUSTOMS RECEIPTS.**—Imports for January 1877.—Value, \$7,332. \$1,846.94. No. 1, 810,092 \$1,828.25. Increase, 8,276.00, \$8. 18.69. Exports: Jan. 1877, to Dec. 1878, \$7,454.

**HOUSE LETTING.**—An exchange says:—"The experience of those who have numbers of dwellings and other buildings to let proves, conclusively, that it is those landlords who systematically advertise early that get the best choice of tenants. At the cost of a dollar or two, in judicious advertising, a good tenant can be secured at the beginning of the season, which may require many times the outlay to get the same result after the letting campaign has fairly commenced. This statement will be confirmed by landlords of extensive experience."

**BELLEVILLE'S CONVENTION.**—A convention of bailiffs, representing all parts of Ontario, has been held in Toronto, the object being to secure certain amendments to the Division Court Act, viz.: An extension of jurisdiction from \$200 to \$300; personal service not to be required on any sum less than \$40; and that a garnishee suit be carried on in the division where the chief creditor lives. Committees appointed to wait upon the President of the convention, and he has promised to give the proposed amendments his careful consideration. One of the practical results of the convention was the formation of an association with the following officers: President, J. C. Widdifield, Uxbridge; 1st Vice-President, John Van Allen, county of Middlesex; 2nd Vice-President, James D. Herrold, Port Hope; Secretary-Treasurer, John Coyne Windsor.

**STORY BY PATER.**—Says an exchange:—"When a man runs three years behind in paying for his newspaper, it is time for the publisher to say 'I will stop your paper unless you pony up the cash,' but the man who pays for his paper in advance reads it with pleasure and in glancing down its columns of local news is not annoyed with the thought that he is stealing other people's paper. Stop my paper! It is not as if it amounts to nearly a cent a day, the price of one drink or a cigar for every ten days in the year, and why should I take it when my neighbors Jones, Brown, and Robinson subscribe and I can borrow and read of their copies. Newspapers and bulletins are dangerous things to lose, its like plugging goods at a pawn shop where some sign is two to one you'll never see them again."

THE EASTERN WAR.

**MIDNIGHT DESPATCHES.**

LONDON, Feb. 1.—Italy is prepared to make an alliance with any Powers to oppose Russian supremacy.

A Vienna correspondent says it is as yet in a diplomatic circle that Austria's Note to Rome, passed through the hands of Bismarck and received his approval. Austria has decided to bring forward a resolution to secure the neutrality of the Danube at all hazards.

A Vienna despatch says Austria would only protest against a Russian occupation of Constantinople. The despatch says that Austria and Russia of the idea of a Conference at Vienna is not a fact.

An Athens special says:—In connection with the Greek frontier's declaration there is a great deal of shooting in the streets. Some indeed remember that the coast is undefended and the capital almost devoid of troops. The arsenal is to be removed from Patras to Solonia, and there are thoughts of removing the seat of Government to Chania. Great excitement was produced.

The following official announcement is published:—The Hellenic Government, moved by the sufferings of the Greek Provinces of Turkey, has given orders for an army of 15,000 men to cross the frontier to Greece in the morning and occupy Thessaly, Epirus, and Macedonia, to maintain perfect public order and prevent massacres of Christians.

The Chamber has voted ten million drachmas for war supplies, to be raised by a loan. An Athens despatch states that the Turkish force in the Provinces inhabited by Greeks consists of 16,000 regulars.

A St. Petersburg correspondent thinks the probability of the speedy conclusion of peace is certainly not increasing, as Russia insists on treating directly with the Porte, while England and Austria's reservations in regard to their interests practically amount to intervention. The *Journal de St. Petersburg* says if Turkey were a civilized Power, caring for the interests of its subjects, the present occupation of her provinces might compel her to make peace. But as the circumstances are otherwise the conclusion of peace is hardly possible.

The *Paris Temps* understands that one of the conditions of the armistice is the march of the Russian army through Constantinople. The *North German Gazette* says:—Russia apparently no longer attaches importance to Turkey's acceptance of the preliminaries of peace, being intent on compensating any want of political success by a complete military triumph.

**NORFOLK, Va., Feb. 2.**—The wrecking tags have all returned from the wreck of the *Metropoli*, and report a terrible war breaking all along the shore. Nothing was visible of the wreck but her steam drivers. The general opinion of the wreckers is that the *Metropoli* grounded at low tide, which kept her from forging close in shore. Having noticed her, her sailors held her head on, the vessel, from the force of the surf, came with her side against the wreck of the *Metropoli*, causing the loss of life.

**MELBOURNE, N. Y., Feb. 2.**—James Walker, a well-to-do farmer living near Bland Heights, was last evening visiting a friend named Channery VanSick, from Troy. After chatting pleasantly with Walker and his wife until about 9 o'clock, VanSick attempted the life of both, using a pistol and knife. The couple were dangerously hurt, but escaped. ## Bills before the Legislature.

A number of bills of public interest, in addition to those introduced in the previous few days ago, have been introduced into the Ontario Legislature. We herewith present a summary of their provisions:

**MICHIGAN'S LAW.**—Mr. O'Donoghue has introduced a bill which provides as follows: Every person doing work upon the construction of a building, or the alteration or repair of any building or erection, shall have a lien upon the same to the extent of the amount due him, and may secure the same by giving the owner an attested account of the work done and filing a copy of the same in the registry office. The owner is thereupon to notify the contractor of the claim, and may pay it if he so desires. If he does not, the contractor shall be referred to arbitration, the claimant appointing one arbitrator, the contractor or owner another and these two a third. The sum paid by the owner in full must of the lien shall be a set-off in any action brought by the contractor against the owner. Any number of claimants may join in one suit. The lien shall attach to successively erected estates and have priority of all other claims, to the extent by which the value of such property has been increased. The claim must be made within ninety days after the work has been completed. The amount may be recovered by summary procedure before the County Judge. There must be within the jurisdiction of the County or Division Court. In other cases the lien may be recovered by ordinary procedure in Chancery. No portion of the property affected or machinery therein shall be removed to the prejudice of the lien, and any attempt to do so may be restrained by application to the Judge of the Court having jurisdiction.

**THE PUBLIC SERVICE.**—Hon. Mr. Hardy's Bill provides that the Departmental staff of the Civil Service at the seat of Government shall consist of two divisions—ordinary and special. The special division shall consist of officers and clerks, and include all offices which require men usually acquired only from the Civil Service. The ordinary division shall consist of deputy heads of departments, officers or chief clerks. In the ordinary division there shall be four classes of clerks. A fourth class clerk shall receive a salary of not more than \$400 for his first year's service as such, and may thereafter have an annual increase of fifty dollars per annum until his salary is \$600 per annum, but he shall not be eligible for promotion into the third class until after four years' service in the fourth class. A third class clerk not more than \$700 for his first year's service as such, and may thereafter have an annual increase of fifty dollars until his salary is \$600, but he shall not be eligible for promotion into the second class until after five years' service in the third class. A second class clerk not more than \$1,000 for his first year, and may have an annual increase of fifty dollars until his salary is \$1,200 per annum, but he shall be eligible for promotion into the first class at his own option. A first class clerk not more than \$1,200 per annum, and may have an annual increase of fifty dollars per annum until his salary is \$1,400 per annum, but he shall be eligible for promotion at any period of his service. No clerk shall have an absolute right to the annual increase of salary authorized, which may be expended and subsequently restored by the head of the department, but without payment of arrears. Officers and clerks in the Special Division shall receive their salaries respectively as may be assigned to them by Order in Council, and no appointment or promotion shall be made except under the authority of the Lieutenant-Governor in Council upon the recommendation of the head of the Department in which it is to be made. Every appointment, whether by commission or otherwise, shall be during pleasure. All appointments shall be subject to a probation of six months, and pass a competitive examination. No person may be appointed Sheriff, Registrar or Clerk of a County Court, until after passing an examination before the County Judge or other person appointed by the Lieutenant-Governor, and no one may be appointed to such offices without a certificate from the Judge or examiners that he has been examined and is qualified.

**THE MINISTRY.**—Mr. Mowat has introduced a Bill respecting the Magistracy, which provides that the Judges of all the Superior Courts of law and equity shall be officers of the Peace, and shall be eligible for re-election. No action or suit shall be brought against any Judge, magistrate or officer for anything done by him on the supposed authority of a statute which may have been beyond the jurisdiction of the Legislature of Ontario or Parliament of Canada, provided such action or suit would not be against him if the statute had not been ultra vires. If this provision is made retrospective, Justice of the Peace are to be entitled to a fee of 50 cents for hearing and determining a case. The Lieutenant-Governor in Council may temporarily appoint a Police Magistrate for any County or part of a County when he deems it necessary for the due administration of justice; the appointee to have the same functions and powers as a Justice of the Peace, and to hold office during pleasure, and without salary, unless the County or municipal Council see fit to appropriate a salary. No other Justice of the Peace shall be called in any manner with the proceedings had before such Police Magistrate, except at the general sessions, or in the case of illness or absence, at the request of the Police Magistrate. Such Police Magistrate may sit alone with the power of two Justices. He may try offences against County and municipal By-laws, impose penalties for refusing to accept either or

to make the necessary declaration of qualification and office, and it shall not be necessary for him to be a resident in the district for which he holds office.

**DIVISION COURT.**—Hon. Mr. Currie's Bill to amend the Division Court Act gives jurisdiction where the claim does not exceed \$500, in cases in which the amount of the demand is ascertained by the signature of the defendant.

**JURORS.**—Mr. Monk's Bill to amend the Juror Act provides that the names of the persons selected to serve as Grand or Petit Jurors shall be transferred to the juror book in alphabetical order, without regard to residence, for the purpose of more equal distribution, being the birth date of the several municipalities in which they reside.

**PUBLIC SCHOOL INSURANCE.**—A short Bill of Mr. Hay's renders Public School Insurers ineligible as members of the House of Commons or Provincial Assembly, and forbids their active interference in election contests for such offices. Mr. Hay intends to limit his own liability, but as the Inspectors are local and not Provincial officers, we question whether the Legislature has any power to interfere with the Inspectors in the same proposed by this Act.

**RELIGIOUS INSTITUTIONS ACT.**—A Bill which Hon. Mr. Crooks has introduced provides for the extension to the Church of England of the Act respecting the property of religious institutions. Land may not, however, be sold without the consent of the vestry, of the Bishop and of the Executive Committee of the Synod of the Diocese.

**SCHOOL TRUSTEES.**—Mr. Ross has again brought forward his Bill regarding the election of School Trustees in Cities, Towns and Villages, which makes provision for the nomination and election of Public School Trustees concurrently with those of the Municipal Councilors. This measure was defeated last session, and we doubt not that it will meet the same fate this year, as the proposition is altogether objectionable.

**FOREST FIRES.**—An Act to preserve the forests from destruction by fire, (Hon. Mr. Farlee) provides: The Lieutenant-Governor may, by proclamation in the Gazette, proclaim any portion of the Province a fire district. It shall not be lawful for any person to set out, or cause to be set out or started, any fire in or on the woods within any fire district, between the first day of May and the first day of September in any year, except for the purpose of clearing land, cooking, clearing a road, or for some industrial purpose. Every reasonable precaution must be taken by persons starting fires for the purpose of clearing land, to prevent the spread of the fire to other places. Every person who shall between the first day of May and the first day of September, make or start within such fire district a fire in the forest, or at a distance of less than a mile therefrom, for cooking, obtaining fuel, or for some industrial purpose, shall be liable to a fine of not more than \$100 for each offence, and may thereafter have an annual increase of fifty dollars per annum until his salary is \$600 per annum, but he shall not be eligible for promotion into the second class until after five years' service in the third class. A second class clerk not more than \$1,000 for his first year, and may have an annual increase of fifty dollars until his salary is \$1,200 per annum, but he shall be eligible for promotion into the first class at his own option. A first class clerk not more than \$1,200 per annum, and may have an annual increase of fifty dollars per annum until his salary is \$1,400 per annum, but he shall be eligible for promotion at any period of his service. No clerk shall have an absolute right to the annual increase of salary authorized, which may be expended and subsequently restored by the head of the department, but without payment of arrears. Officers and clerks in the Special Division shall receive their salaries respectively as may be assigned to them by Order in Council, and no appointment or promotion shall be made except under the authority of the Lieutenant-Governor in Council upon the recommendation of the head of the Department in which it is to be made. Every appointment, whether by commission or otherwise, shall be during pleasure. All appointments shall be subject to a probation of six months, and pass a competitive examination. No person may be appointed Sheriff, Registrar or Clerk of a County Court, until after passing an examination before the County Judge or other person appointed by the Lieutenant-Governor, and no one may be appointed to such offices without a certificate from the Judge or examiners that he has been examined and is qualified.

NEWSPAPER ENTERPRISE.—That excel-  
lent journal the Montreal Gazette, has ex-  
hibited very commendable enterprise of  
late. The Toronto papers of yesterday did  
not contain a report of the speeches made  
in Parliament after 6 o'clock on Wednes-  
day, but the Gazette furnished its readers  
with a full report as its Toronto counter-  
parts, containing the whole of the pro-  
ceedings up to the adjournment.  
Gazette is to be commended for its enter-  
prise, and as, by the opening of the new  
direct railway route from Montreal to Ot-  
tawa, it reaches Ottawa by 10 o'clock a.m.,  
it anticipates the Toronto papers by  
several hours at the capital, which circum-  
stance will doubtless add considerably to  
its already large circulation.

ADJOURNMENT.—Mr. Wells has introduced  
in the Legislature an Act to amend the  
Assessment Act, which provides that the  
statute labor of non-residents may be com-  
puted by the Township Clerk at a rate not  
exceeding 1 per cent. on the valuation, on  
each lot of less value than \$200, but the  
Council may, by By-law generally affecting  
all lots, direct a less rate to be imposed.  
In case the Collector fails to collect the  
taxes the Council of the city, town, village  
or township may authorize the Collector or  
some other person in his stead to continue  
the levy. Every Treasurer is to be enti-  
tled to such fees as the Corporation may  
by-law should authorize, and failing sanc-  
tion to that effect he shall be entitled to a fee  
of one cent on each separate lot by him ad-  
ministered, together with 21 per cent. com-  
mission.

was a large attendance. The chair was oc-  
cupied by Mr. John Cook, the President,  
who made a brief and encouraging ad-  
dressing speech. The programme was lengthy,

and are not "rich toward God?" you are poor man in the midst of all you possess. Or, if you are borne down by earthly care and poverty, and it may be, also afflicted by body, and have no hope of a better life, through the merits of Christ, you are doubly poor, for you are poor for both worlds. Be it known unto you, whatever is your earthly condition that the prospect of a crown of righteousness may be yours. Rich or poor, young or old, if you flee to Christ as your Saviour, and obtain pardon through His blood, you shall have a crown that shall not fade.

Lord shall come in His kingdom and glory.  
An interest in Christ is worth more than  
million of worlds.

**The Victory of Faith.**

I want to tell you how it is that faith helps  
Christians to overcome the world. It does  
homeopathically. You say, "That is a  
singular idea." So it maybe. The principle  
that "like cures like." So does faith over-  
come the world by curing like with like.  
How does faith trample upon the fear of

[illegible]

**Indecision.**

Of the many causes which hinder men in attaining success, indecision is, undoubtedly, one of the most potent. Without any defined course marked out for themselves, they launch out into the great ocean of life, depending more upon chance than any fixed line whereby a definite result must be obtained.

Thinking to-day, perchance, to amass a fortune through some particular channel, to-morrow, easily alter it for some other, they pass their lives : continually varying views discontented with the present, and looking to the future for brighter days, while their indecision does not warrant them to bet. How many young men there are, who, if settled in their purpose of obtaining a school, would ultimately be crowned with success? How many old men, who, if they were not so lightly, and so frequently, changing their avocation, would be now in the

ment of every comfort, whereas their 1 days are embittered by want, and their 2 the workhouse! It is the curse from 3 no one is exempt, that "man shall earn 4 bread by the sweat of his brow." Such 5 the case, let us not be over fastidious as 6 nature of our employment. We were 7 placed in this world to enjoy a Paradise, 8 to prepare ourselves by honest, virtuous 9 for endless bliss. If we feel dissatisfied 10 our lot—which in fact we all do, the 11 well as the beggar—let us nobly and man- 12 endure it, and console ourselves with

**Evening Amusements.**

During the long winter ordinary evening amusements lose their charms to the child. So a neighbor and myself invented a new one for the entertainment of our large family. Every week we have one evening that is called "story night." On this evening each

present tells a story, made up for the occasion or gleaned from readings. \* The young member opens the entertainment, the next older, and so on till the father, the aunts, uncles, and visitors, if any were sent, all tell a story. Late!y since the 1800s have been in school, they frequently recite poems from their reading books, and then with appropriate emphasis and gesture, they write a story and read it. The one spent in this way is quite the pleasantest of the whole week, and is looked forward to with anticipative preparation by every

ber of the two families. If any one chooses to sing a song, or play an instrumental on the piano or organ, that is gladly accepted in lieu of a story; but no one is exempt from contributing something to the common fund of entertainment. It is wonderful the insight manifest in the ability of the younger ones, and the elder ones too, in narrative and handling character. Criticisms of the kindst sort, and all are entertained the efforts of the others.—*Exchange*.

What a blessing to a household is a man cheerful woman—one whose spirits are not affected by wet days, or little disappointments, or whose milk of human kindness does sour in the sunshine of prosperity. Such a woman in the darkest hours brightens the house like a little piece of sunshiny weather. The magnetism of her smile and electric brightness of her looks and movements in every one. The children go to school with a sense of something great to be achieved; the husband goes into the world in a conquering mood.

We advise all young people to acquire early life the habit of using good language both in speaking and writing, and also abandon the use of slang words, and phrases. The longer they live, the more difficult

acquisition of good language will be; and the golden age of youth, the proper time, the acquisition of language, to pass in abuse, the unfortunate victim of neglected education is very probably doomed to slang for life. Money is not necessary to procure this education. Every man has it in power. He has merely to use the language which he reads, instead of the slang which he hears; to form his taste from the best speakers and poets of the country; to treasure choice phrases in his memory, and habitually to apply them to his own use, and to himself to their use, avoiding at the same

time that pedantic precision and bombast  
which show rather the weakness of vain as-  
piration than the polish of an educated mind.

## Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 18.

## City and Vicinity.

**City Council.**—There will be a meeting of the City Council this evening at the usual hour.

**Lecture.**—Remember the lecture by Rev. C. A. Doddie, of Montreal, in the Metropolitan Hall to-morrow night, on the subject of the Haeckel murder.

**Opera House.**—The "Lingards" will appear in their great drama "Heart and Crown," in the Opera House this evening, after which Mr. Lingard will give a series of his celebrated "character sketches." The company is probably the best now travelling.

**Skating Carnival.**—The skating rink which is to take place on the City Canal to-morrow night promises to be highly successful. The ice will be in good condition as possible, and arrangements for the convenience of spectators have been neglected. Mr. B's band will furnish music for the occasion.

**Real Estate.**—A lot of \$2.50 per 100 ft. at H. Corby, Jr.'s, four and feed store. He also sells all kinds of feed at proportionately low rates.

**First of the Season.**—Eleven cases of the latest American goods, and five cases of the latest English suits and cloth hats at Hyman's, opposite Consolidated Bank.

**Amusement.**—It will be seen by card in our advertising columns, that Mr. Ralph Parry has commenced business as auctioneer and commission merchant. Mr. Parry's abilities are excellent, and we commend him to those requiring the services which he offers.

**Grand Orange Lodge.**—The delegates who are to attend the meeting of the Grand Orange Lodge for Ontario East are already beginning to arrive. Mr. John White, M.P., Grand Master, arrived on Saturday morning. The session will commence to-morrow at 2 p.m. in the City Hall.

**Grand Black Chapter.**—Mr. J. W. Kenny, of Ottawa, Grand Master of the Grand Black Chapter, arrived here yesterday morning, and the Chapter commenced its annual session in the Orange Hall at 2 p.m. today. There was a large attendance of delegates. The Chapter will conclude the business of the day to-night's sitting.

**Changeable.**—The weather during the past forty-eight hours has been very changeable, though it has not changed in the respects which Mr. Vennor has so confidently predicted, there having been neither snow nor extreme cold. Yesterday the temperature was high and the little snow on the ground almost disappeared, but during the night a sharp frost set in, which continued today.

**Before Stock Taking.** James Hennessy wishes to clear out all the odds and ends of Dress Goods, Shawls, Cloths, Flannels, Corsets, Prints, Cottons, Steam Locomotives, Hosiery, Gloves, Scarfs, Towels, Trunks, Table Linens, &c. &c. &c., of James Robertson's Bankrupt Stock, at whatever prices they will bring, before taking stock. Note the address, Robertson & Emery's old stand.—Jas. Hennessy, Dealer in Bankrupt Stocks.

**New Loan and Investment Company.**—We are pleased to hear that Mr. M. A. Dixon has been appointed Solicitor and Agent for Belleville and vicinity of the new English and Scottish Investment Company of Canada, with a paid up capital of \$2,500,000 which has been established for the purpose of loaning money on Real Estate and purchasing Mortgages and Debentures in Canada. The Company commences business on the 1st of March next, with the Hon. James Patton, Q. C., General Manager.

**Globe Mutual Life Insurance Company.**—We give insertion to a letter from the Secretary of the Globe Mutual Life Insurance Company of New York, to the General Manager of the Company at Montreal, to the effect that they intend complicity to the new Insurance Bill, requiring foreign companies to deposit with the Government the full reserve on all policies issued in Canada. This decision on the part of the Globe Mutual will give general satisfaction to its large number of Canadian policy-holders, and must be the means of largely increasing its business in Canada. The Company is one of the best and strongest in the country having assets to the extent of nearly five millions of dollars, and all accumulated within a few years.

Mr. E. L. Auger has been appointed Agent for Belleville and vicinity, and notwithstanding the severity of the times, we have no doubt he will meet with every success in securing a large business for this very popular Company. Mr. C. N. Van de Oude, the General Agent for this district, is now in Belleville, and in

connection with Mr. Auger will be glad to explain the plans of Life Insurance adopted by this Company.

**HARPER'S MAGAZINE FOR MARCH, 1878.**—Harper's Magazine for March offers even stronger attractions in its reading matter than in its many beautiful illustrations. In its serial fiction, it presents a novel with serial stories from the pen of the author as William Black and Thomas Hardy. Miss Constance F. Woolson contributes a very humorous short story entitled "Morganatic Match." The serial story laid in Ohio at the time of Morgan's raid and two situations in the story are the motives of some remarkably fine illustrations. Another short story, "Squire Paine's Conversion," is from the pen of Terry Cooke's sharp delineations of New England life. A number of other interesting stories of a wide range of subjects go to make up a number fully up to the usual standard of this leading magazine.

**"Wonders of Discovery."**—An "Express Relief." This preparation, which is advertised in another column, and is largely through the Dominion, is now introduced into this City. It comes so well recommended, we would draw the special attention of our readers to the fact that it is a remedy in Toronto, Hamilton, London and Western Towns and Cities it is working remarkable cures in rheumatism, neuralgia and all painful complaints. No internal or external pain can live where it is applied. Kills it instantly and is safe and harmless. All who have ever given it a trial acknowledged it a remarkable achievement in Medical Science. Go to your druggist and get a bottle, and you will not be deceived. It only costs 25c per bottle.

**GRAND REUNION AT ST. MICHAEL'S.**—A Grand Reunion Mass was celebrated in St. Michael's Church this morning for the repose of the soul of the late Pope Pius the ninth. The sacred edifice was crowded, several of the leading Protestants being among the number. The services were very impressive and grand, the church being beautifully draped in mourning, the altar in particular being artistically decorated. A beautiful cantata, accompanied by immense sets of tapes, and covered with crosses of beautiful flowers, was erected within the sanctuary and added much to the solemnity of the occasion. Very General Parnell preached an appropriate oration on the life and many virtues of the Great Pontiff. It was pronounced to be one of the best ever preached in the city. The choir, under the direction of Mr. Dwyer, rendered appropriate music. The fine composition, "The Death of the Christian," was beautifully rendered by Mr. Costello and choir. The service was concluded by a hymn.

**LEARNERS.**—The Belleville Independent says:—Since our last issue there has been a slight falling of snow, but not enough to make sleighing. In this village, and its vicinity, sleighing is impracticable, and great inconvenience is arising from its consequences. Up in the woods to the north, in some favored localities, there is just enough snow to enable logging operations to proceed, but as a general thing it may be said that halting this year will be so difficult as last year. The supply of logs, at Gooderham, and in Hawke, some logs are being drawn, but other localities are absolutely bare of snow, and it is so late in the season that it will be impossible, except under unusual circumstances, to get the log crop to the lumbermen. The lumbermen themselves do not fret at all about it, but console themselves with the reflection that the work that can be done will be as well as it would have been if we had had a good winter for logging. The season has been very favorable for cutting, and a large quantity of logs have been skidded, and even if it should snow now it is not probable that more than fifty per cent. of logs will be hauled. It must, however, be remembered that a large number of logs were last year hauled up on the smaller streams, and while this year be brought to market. The parties who will suffer this year are the jobbers. As they will not be able to deliver their logs they will have to wait for their money next year, and in many cases this means ruin.

**Police Court.**  
(Before A. Diamond, Esq., P. M.)

**MONDAY, FEB. 18.**

**DRUNK.**  
George Harrison, who had been remanded for a week was allowed to go.

**DRUNK AND DISORDERLY.**  
George Henderson, charged with being drunk and disorderly on Saturday afternoon, was shown by the evidence of Constable Cook to have been drunk as charged, and swearing on the street and was fined \$1 and costs.

**PAID AND CHARGED.**  
William Sanford was charged with having by fraud and cheating at cards, defrauded James Cameron of \$200. Sanford and wife were not ready for trial, and the case was adjourned until Thursday.

**ABORTION AND MURDER.**  
Dr. T. L. Allen was charged with having, at Toronto, on the 15th day of January 1877, by the administration of some drug or by the use of some instrument, with intent to procure an abortion, feloniously killed a female child.

The Chief of Police was sworn and said: I arrested prisoner on Saturday night; I laid the information on what I learned by inquiries; am not prepared to go on with the case; I ask an adjournment till Wednesday; believe the case to be true.

The prisoner not being ready to go on, the case was laid over till Wednesday.

The Magistrate said the case was not a bailable one; if he thought the case a slight one, so that conviction would not probably result, he could then take bail.

**THE CASE OF AGNES BRODIE vs. ORMOND TAYLOR.**—The case arose out of a row between the children of the parties, wherein it was testified by Elizabeth Brodie, a child of 13, that she was assaulted by Taylor's children; that she resisted them; that Taylor came out of his house, slapped her on the face and made one of his boys kick

her and chase her home. The witness for the defence contradicted the girl's story, saying that she assaulted Taylor's children, and that Taylor did not strike her, but took her by the arm and shook her. The case was dismissed.

THE EASTERN WAR.  
MIDNIGHT DESPATCHES.

**LONDON, Feb. 17.**—A Pers communication is reported that the Circassians, when retreating before the Russians, effected a deal with military women and children who had taken refuge in a cave.

A Constantinople despatch says:—The British fleet has been withdrawn to Moulouzia, 40 miles south of Constantinople. The movement is attributed to a desire on the part of England to facilitate the negotiations to prevent the entry of the Russian fleet into the Bosphorus.

The report that a Congress would be held at Baden-Baden is confirmed. Negotiations have been concluded. All the Powers, including Russia, have assented.

The London Observer believes that Russia has represented to England that the United States, as a great maritime power, should participate in the Congress. Russia has not objected, but has taken advantage of the proposal to suggest that Greece also be allowed to take part.

A Tchaikoff's telegram reports that in the Russian camp renewed hostilities are discussed as more probable than peace. The entrance of the British fleet into the Bosphorus before the conclusion of the armistice should have been answered, it is unobtainably said, by a Russian declaration of war. War with England would be very popular with the army.

The Berlin Journal, opposed to the policy of Austria, states that Admiral Hornby has been ordered to seize the Turkish fleet necessary to prevent its surrender to the Russian. A Paris correspondent telegraphs that intelligence has been received there that Bismarck on Tuesday will be able to announce that owing to the Emperor William's friendly intervention Russia has resolved to maintain an attitude which cannot impair the peaceful solution of existing difficulties. According to the latest information, England and Russia will maintain their respective military and naval positions during the session of the Congress. No other power will enter the Dardanelles, lest it should increase the complications.

MORNING DESPATCHES.  
EUROPEAN.

**Austria will Decide To-day.**  
**BRITISH AND TURKISH FLAGS SALUTE.**

**GREECE & TURKEY.**

**LONDON, Feb. 18.**—A despatch from Vienna says Austria will to-day announce her definite resolution regarding her attitude on the situation of affairs in the East.

The British flag ship *Albatross*, on the passage up the Dardanelles, saluted the Turkish flag at Helle Island, and the salute was returned by the garrison of that place.

The news this morning has been somewhat disappointing in the United States for their tensions fighting in opposition to the silver bill.

**ATHENS, Feb. 18.**—It is announced that Turkey will not send the fleet to the Tinnos, nor will send troops to Thessaly, consequently Greece has recalled her troops from the frontier and all is now quiet.

The House of Representatives will settle the question of rights of Greece.

**CONFIDENTIALITY, Feb. 18.**—The Russians have withdrawn from the Samosir delusion, part of the Constantinople line of defence, which they occupy on Friday. The Russians are not to cross the line of demarcation fixed by armistice.

**PARIS, Feb. 18.**—The Porte has informed the Powers that the Greeks have again crossed the frontier near the town of Arta, Albania. The Porte has sent a thousand men to resist the invasion.

**LONDON, Feb. 18.**—A Vienna dispatch confirms the statement that the principle of European meeting has been agreed to. Frankfort-on-Main is conspicuously mentioned, but the whole Baden Baden is most likely to be the place for the meeting. Austrian lays great stress on the Congress assembling as soon as possible.

**ROME, Feb. 18.**—After a special service invoking the aid of the Holy Spirit for the Congress, the Cardinals will to-night enter the city in the triumph of the Vatican. The operations of the Congress begin to-morrow.

It is reported that Mayor Powers, of Chamberburg, who left mysteriously a week ago, alleged delinquent to the Odd Fellows Lodge, and also to the Borough office where he is Mayor, in Philadelphia with his friends inside.

**ROME, Feb. 18.**—All the Cardinals arrived, except the Archbishop of Beauvoisin, the Archbishop of Rome and Archbishop of Capua, who are not coming, and Cardinal Mecklenburg, Cardinals De Pastor the Bishop of Pavia, the prefect of the Congregation and the Cardinal Secretary of State, the Cardinal Secretary of the Italian. Cardinals Parrochi, the Archbishop of Bologna and Moretti, the Archbishop of Ravenna are favored by the foreign press. The King and Queen, Prince Camerlingo, and De Camossa, Bishop of Verona, are supported in various quarters.

**BELLEVILLE, Feb. 18.**—The marriage of the Princess Charlotte, the daughter of Queen Victoria and grand-daughter of Queen Victoria to the Duke of Albany, was celebrated at St. James's Palace, London, on the 10th inst.

principally perished have arrived. An unique feature of the festival proceedings was the traditional dance by torchlight of 12 Ministers of the Emperor's Cabinet. The troupe has been entirely of German make. Bismarck will not only take part in the wading festival, but he will also walk at the head of the ministers in the ceremonial dance with flambeaux. Since 1872 the Chancellor has constantly remained away from all social festivities; that he now appears is considered indicating reconciliation between the Chancellor and the Court.

**ELIZABETH, N. J., Feb. 18.**—The Plainfield Savings Institution closed its doors on Saturday. Since January first about \$100,000 deposits have been withdrawn.

**TORONTO, N. J., Feb. 18.**—Jacob Harry and Louis Press, charged with embezzling monies of depositors in the State Savings Bank, were yesterday returned to the County Jail and placed on police custody.

Entered into recognizance to appear next Monday for sentence.

**WASHINGTON, Feb. 18.**—The President has approved of the joint resolution declaring the removal of the tax on distilled spirits inapplicable.

The British Minister has informed the department of state that he has received from the Governor-General of Canada a copy of a letter from Col. McLeod, dated January 18th, 1878, July 22, confirming previously published reports denying that Sitting Bull has crossed the border.

**NEW YORK, Feb. 18.**—The Commissioner to the Paris Exhibition says he knows nothing about the rumored postponement of the Exposition or delaying the departure of the ship.

**WEATHER REPORTS.**  
**TORONTO, Feb. 18.**—Probabilities for the next twenty-four hours for the Lower Lake region, light to moderate wind, and clear to fair cold weather. For the St. Lawrence, moderate winds and generally clear cold weather.

**WASHINGTON, Feb. 18.**—Indications:—For the Middle States and Lakes decided colder, clear and partly cloudy.

**OUT FLOWERS.**—It is stated that out flowers will keep best in winter if placed in white glass filled with soap suds, to which a teaspoonful of charcoal is added. At night they should be sprinkled with water and put under a glass shade, or a paper cover, or wet cloth may be thrown over them if the flowers are not delicate.

At least every other day the water should be changed and the discolored ends of the stems cut off. Short stemmed flowers are best kept in shallow dishes half filled with wet sand or moss, salt charcoal and a few drops of ammonia being mixed in the water. Bouquets can be kept more than two weeks with care.

## Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 19.

## City and Vicinity.

LECTURE.—Rev. C. A. Doudie will to-  
night, in the Metropolitan Hall, deliver his  
lecture on the Halleluiah.

CARNIVAL TO-NIGHT.—The ice on the  
rink is in a critical condition, therefore the  
first-of-night is certain to prove very  
attractive and successful.

Best family flour at \$2.50 per 100 lbs.  
at H. Corby, Jr., flour and feed store.

He also sells all kinds of feed at proportion-  
ately low rates.

PERSONAL.—Miss Robertson, Esq.,  
Mayor, resumed his seat in the City Council  
last night, having happily recovered from  
an illness which confined him to the  
house for three weeks.

FIRST OF THE SEASON.—Eleven cases di-  
rect of the latest American hats and caps,  
and 6 cases of the latest English styles and  
cloth hats at Hymn's, opposite Consolidated  
Bank.

Social.—A social entertainment is to be  
held in the Baptist Church on Thursday  
night, when addresses will be delivered by  
the Rev. Messrs. McLean, Rose and Connor,  
and Mr. Carmichael will give a reading.  
Refreshments from 6:30 to 7.

TRAVELER'S MINUTE.—This favorite  
company will give a performance in the  
Opera House to-morrow night. The com-  
pany is the best organization of the kind  
on the road, being strong in musical talent  
and happy in amusing qualities. Seats  
can be secured at Reynolds.

GRAND ORANGE LODGE.—The Provincial  
Grand Lodge for Eastern Ontario met at  
2 p.m. to-day in the City Hall.  
John White, Esq., M. P., Grand Master  
presiding. There is a large attendance,  
comprising leading Orangemen from all  
parts of the jurisdiction.

PUBLIC OFFICE.—The City Council have  
resolved to memorialize the Government  
in relation to Belleville, a public  
building for the Post Office, Customs House  
and Inland Revenue Office. It is to be  
hoped that the memorial will have due  
effect, as the erection of such a building is  
very desirable.

A FINE DISPLAY.—On the second floor  
of Mr. Wm. Johnson's store is to be seen  
a fine display of Orange regalia. Mr. John-  
son is the most extensive manufacturer of  
regalia in the Dominion, and receives and  
executes orders from all parts of Canada.  
Members of the Grand Lodge will find it  
worth the trouble to pay a visit to Mr.  
Johnson.

BEFORE STOCK TAKING.—James Hennessey  
wishes to clear out all the odds and ends  
of Druggs, Groceries, Clothing, Hardware,  
Wine, Spirits, Cigars, Steam Locomotives,  
Heavy Goods, Spools, Toiletries, Tick-  
ets, Table Linens, &c., &c., of James  
Robertson's Bankrupt Stock, at whatever  
prices they will bring, before taking stock.  
Note the address, Robertson & Emery,  
old stand—Jas. Hennessey, Dealer in Bank-  
rupt Stocks. d&w

THE HARBOUR.—A letter was read in the  
City Council from Mr. Jas. M. McGuig, of  
Pictou, regarding the dredging of the  
harbour. As Mr. McGuig truly states,  
the wind blows from the west—and that is  
the prevailing wind during the summer—the  
large steamers which trade here, on ac-  
count of the shallowness of the water near  
the island. A little dredging would re-  
move this great drawback to the trade at  
the port, therefore we trust that the Do-  
minion Government will respond favorably  
to the memorial of the City Council  
saying a further grant to assist in com-  
pleting the dredging.

NEW SHIRT FACTORY.—S. G. Retallack  
is now preparing to manufacture Gent's  
Fine Dress and Colored Shirts, from im-  
ports, guaranteeing satisfaction to all.  
The goods are made from the very best ma-  
terials manufactured, and cut in a manner that  
insures perfect ease and comfort to the  
wearer, and facilitates in style and ap-  
pearance while the prices and terms must  
command the admiration of all lovers of  
fine dealing. Soliciting your patronage.  
Office and Factory Robertson's Block 2.

"WONDERFUL DISCOVERY!"—ENGLISH  
RELIER.—This preparation, which is ad-  
vertised in another column, and so largely  
through the Dominion, is now introduced  
into this city. It is a new and most ef-  
fective remedy for the most distressing  
of our readers to this advertisement.  
In Toronto, Hamilton, London and West-  
ern Towns and Cities it is working remark-  
able cures in rheumatism, neuralgia and  
all painful complaints. No internal or  
external pain can live where it is applied.  
Kills instantly and is safe and harm-  
less. All who have ever given it a trial  
acknowledged it a remarkable achievement  
in Medical Science. Go to your druggist  
and get a bottle, and you will not be de-  
ceived. It only costs 25c per bottle.

The Militia.

SIR ARTHUR SMITH'S REPORT AND RECOMMENDATIONS.

General Sir Arthur Smith's report on the state of the Militia, is somewhat extensive. He says the Militia is in a marked degree qualified to make excellent soldiers, being hardy and active, and to receive the training of the Militia with willingness to submit to necessary authority. He recommends that the Militia be made more efficient, as follows, briefly summarized.

(1) That the period allowed for drill should, if possible, not be less than twenty-eight days, seven of which at battalion headquarters, if practicable, and the remainder in brigade or divisional camps of exercise.

(2) Three model training schools for cavalry and infantry by embodying three companies respectively on the basis of and with similar objects to the two Gunner Schools.

(3) A paid and permanent adjutant and sergeant-major to act as a recruiting storekeeper and leader for each corps.

(4) That the adjutant, sergeant-major, and clerk of each corps should be kept at regimental headquarters under permanent command.

(5) That a contingent allowance to the army should be paid to each captain of a company to cover losses, holding him responsible for the maintenance of his company, with power to recover penalties from any soldier being or damaging public property.

(6) That the brigade staff should be paid a consolidated allowance proportioned to the amount they now receive instead of being paid \$8 per annum for each efficient company.

(7) The battalions constituting the Gunner or Artillery Schools should have their four guns field forced.

(8) If circumstances render it beyond our reach at present to institute the cavalry and infantry schools which are so indispensable, then as a temporary substitute an addition of 50 men and two officers as cavalry and infantry instructors should be added to the two Gunner Schools, rendering them thereby schools for the three arms and more comprehensive measures are adopted.

(9) Additional assistance is necessary for the repair of rifles. There are only two qualified armors at Quebec and Montreal respectively, but in the widespread command at least two more are required to keep the 42,000 rifles in proper repair. A large supply of accoutrements, such as belts, articles of every description should be added to our present stock for this purpose. The arms requiring repair should be sent in at a trifling expense to the different military stores along the whole line of country.

(10) That a brigade of Garrison Artillery be raised at Quebec and another at Kingston, composed of 24 batteries each, to man the important fortresses at those stations.

The General refers to his several tours of inspection, and speaks generally of the high efficiency of the various enrolled corps, particularly those of the militia. Our active militia, the advance guard of the Dominion forces, is at present constituted as follows:

Cavalry, 1,800  
Field Artillery, 1,325  
Engineers, 225  
Infantry, 2,700  
Total, 43,725

The field batteries, 17 in number, are composed and armed as follows—13 with 7 pounders, 2 with 9 pounders, and 2 with 12 pounders.

At present the 13 with 7 pounders are stationed at Halifax; 2 with 9 pounders at St. John's, and 2 with 12 pounders at St. John's.

We have at present three permanent and very important establishments at work, which will produce solid effects in the future progress of this growing country.

These are the three regiments of Militia Schools termed "A" and "B" batteries, and the Military College at Kingston. The latter institution is progressing under the able and arduous command of Lieut. Col. Blewett, R.E., in a manner that reflects credit on himself and the officers of his staff.

The number of cadets on the 1st December consisted of 38, and about 15 more are expected at the half-yearly examination, and so on until the total number 100 to 120 is completed at the end of four years from the 1st June, 1878.

Captain Pallister, brother and agent of Sir William Pallister, the General says, took a great interest in the subject of converting the Canadian militia into a regular army.

There are in the Dominion 19 light, 135 heavy, 200 24 pounders, and 32 18 pounders guns. This can be done as a comparatively small cost, subject to the report of the Militia Commission.

A suggestion has been made for the construction of an earthwork battery at McQuay's Point, Vancouver Island, at a cost of about \$60,000. The work is considered important, because in the absence of a man-of-war from the anchorage in Esquimaux harbor, which sometimes happens, there is no kind of protection for the valuable stores of the harbor and to guard the royal dockyards of Esquimaux and Victoria, B.C. Regret is expressed that the Ottawa works have not been presented a more creditable and military appearance. There is a reserve of 21,000 Snider rifles, and about 5,000 rifles and carbines of various patterns, which are recommended to be sold, and their places filled by 10,000 Snider rifles of pattern. Of small arms there are about 200,000 pounds and of snider ball cartridges about 30,000 pounds and of snider ball cartridges about 30,000 pounds.

In addition to the above there are about 17,000 for field artillery, and about 200 rounds per gun, besides 100 rounds per gun in addition, ordered from England. For the new converted guns, 200 rounds of shell for each gun in the item of ammunition, therefore, the Dominion is fairly provided, but as least 100,000 additional Snider rifles should be kept in stock.

Rifle practice has been carried out, and the Militia Commission has expressed the opinion that too much practice should be given to soldiers in this season, in which the Militia Commission is required. The report further adds that the Dominion and the Provincial Militia have given valuable assistance in making good marksmen, and in keeping alive a healthy emulation in rifle practice throughout the country. Those useful Associations deserve support, and it is especially for the Canadian Militia that they have for so many years been so well represented at the Imperial rifle ranges in Windsor.

The thanks of the Militia, the people and the

Dominion at large are due to the indefatigable efforts of Lieut. Col. Blewett, who, year after year devoted himself with well-directed zeal to have Canada efficiently represented at the Imperial rifle ranges in Windsor.

It is a pity that the Militia Commission is not as liberal as his patriotic ardor were effective and acknowledged. His efforts have been most successful in showing that the Dominion Brigade of Artillery is the best in the world.

cool in keeping a steady temperature of 75° in the curing room. He advised against trying the new system, and to prove all things, holding fast to that which is good.

The report of the Committee on order of business was then presented and adopted. Hon. HAZARD LARSEN said he thought the west had the advantage of the east in having cheap grain, which must be largely sold in the east. He did not think winter dairying could be made to pay in the east, and he believed that winter dairying would be adopted in the west, therefore he advised his eastern friends to continue in the old market of summer dairying, as thereby they could all put their product on the market when it was fresh and most valuable. There was no reason in holding back their product when the consumer wanted it, and when it was in the best possible condition to go to consumption.

Prof. STEWART held that grain relatively to other food was no dearer here than in the west. He held that winter dairying could be successful, as he had by experiment found that he could produce butter cheaper in the winter than in the summer. It was settled that butter was not so valuable in winter than in summer, he held that the question of winter dairying was settled.

The President took the same view as the last speaker. He considered bright butter better food for cows than timothy hay.

In answer to a delegate, Prof. WATERS said that milk was far more regarded as food in Massachusetts. It was well, the cows eating it greedily, and is a good milk producing food. The Hungarian grass, another variety of the same species of grass, the golden or German millet, was also good food. Never heard it objected to that Hungarian grass was an exhausting crop, although it had been extensively grown in Massachusetts. It should be cut green and not allowed to go to seed. It should be cut when the seed had formed, as it allowed to ripen the stalk became very woody.

A delegate said he found the best result from golden millet when it was sown on light land.

Prof. STEWART said the seed being very fine, a fine seed bed was required.

Mr. LARSEN said, in answer to a question, that a new forage plant called the Indian rice millet is likely to turn out valuable as winter food. It is a fine seed, and the soil should be well pulverized. He never gave his cows food that he liked better than the millet. Mr. Lewis then gave, by request, his experience with several cows.

Prof. WETTERHILL recommended barley as an autumn forage crop, sown so as to have it come into use in September and October.

Mr. LARSEN recommended peas and oats as the best of cooling crops.

After some further discussion on the forage question, the Convention adjourned until 10 a.m. to-morrow.

FRIDAY, FEB. 22.  
MORNING SESSION.

The Convention resumed at 10 o'clock a.m.

The President submitted the report of the Directors for the past year, detailing operations. The receipts had been \$1113.50 and disbursements \$1138, leaving a balance due the Treasurer of \$24.50.

The report of the Committee on nominations was then read, nominating the following gentlemen as officers for 1878.

PRESIDENT.—G. Graham, Belleville.  
VICE PRESIDENT.—W. S. Yates, Belleville.

2ND VICE PRESIDENT.—D. Vandewater, Sidney.

DIRECTORS.—Division No. 1, D. M. McPherson, Lancaster; No. 2, I. Morgan, Osprey; No. 3, Charles Grant, Kingston; No. 4, Henry O'Brien, Huntington; No. 5, Platt Hiaman, Groton; No. 6, J. R. Craig, Toronto.

The report was adopted unanimously.

Letters of apology for their absence were read from Hon. James Skead, of Ottawa; and Mr. Thomas Watkins, of Belleville.

Mr. Ashley urged that the farmers should attend the Conventions and assist themselves, as well as receiving the assistance of the Government.

A delegate proposed the free distribution of a number of copies of the proceedings amongst the patrons, as the best means of giving them an idea of what could be learned at the Conventions. If this were done there would be a much larger attendance next year.

Mr. P. R. DART explained that the proceedings of last year were due to the fact that the report furnished by the official reporter was not in a state to go to the printer, and could only be put in correct shape as late as (in October) that it was considered too late then to incur the expense of printing it, and in addition they had been financially embarrassed by having to meet their share of the indebtedness of the old association.

A delegate thought last year's report should be printed in connection with this year's proceedings.

Mr. DART thought the suggestion a good one. The report could be looked over by a skilled person and that which was valuable embodied in this year's publication.

Prof. Bell suggested the submission of the report of last year's report to a Committee who could select the valuable portion of the report for printing, as it would be needless to print the whole report.

On motion, the President, Secretary and Prof. Bell were appointed as a Committee to revise last year's proceedings, with a view of selecting portions of last year's report for publication.

Mr. Hoxie, of Waterloo, New York, then delivered an address on the Holstein cattle as dairy cows. Having read and at some length the history of the Dutch cattle, he showed that dairy husbandry in the Netherlands had been begun at a very early period, and that cows in the low countries are more carefully bred and taken care of than the farmer's families in winter time (laughter) that the most comfortable part of the far-

mer's dwellings. The stables are wonderfully built, and the cows are the pride of the family. In early times improved blood was imported from Holland into England, and the foundation laid for the Holsteins, Short-horn and Ayrshire breeds there. The breeds of cattle in the east and west of Europe had been improved by importations from Holland. The popularity of the Holstein breed led to large importations for breeding purposes, and as a consequence improved breed animals had been sold as genuine Holsteins. He then began to describe the characteristics of the thoroughbred, and claimed that the greater facility they are presented by any other breed. He claimed that the Holsteins are good all other breeds in milk production and gave a number of instances of large yields of milk by cows of that kind, and only a few breeds yield richer milk. The milk was not so well adapted to butter making as that of Jersey or Devon, but was superior for cheese making, and the butter made from their milk was a superior article for exportation. Their milk was well adapted for consumption in its whole form, and they are also excellent beef cattle, surpassing rather than any other breed the Short-horn, hence they were the best cattle for farmers. Upon natives and Ayrshires the cross was successful. It showed a model between the two would take a cross between the Holsteins and Ayrshires.

On motion of Prof. Bell, the thanks of the Convention were tendered to Mr. Hoxie for his address.

### NOTICE.

INTELLIGENCE, FRIDAY, FEB. 22, 1878.

Accounts are now being rendered to those in arrears for the DAILY INTELLIGENCE, as well as accounts for printing and advertising long overdue. Unless such accounts are settled within one month from this date, prompt measures will be taken to collect them.

G. T. RAILWAY.—The Grand Trunk Railway directors have declared a half-year's dividend of three per cent. on first preference bonds.

MIDLAND RAILWAY.—The Midland Railway strike is at an end, the men having yesterday accepted the proposition made by the representatives of the bond-holders. Traffic will be resumed to-day.

NORTHERN RAILWAY.—The annual meeting of the Northern Railway Company was held on the 20th inst. at Montreal. The report stated that the gross traffic receipts have amounted to \$728,472, as against \$734,801 in 1876, showing a decrease of 7.17 per cent. The working expenses of the year have amounted to \$415,773, as in comparison with \$438,525 in 1876. The net revenue of the year has been amounting to \$312,699, as against \$329,249 in 1876, being a reduction of \$16,550. The old board of directors was elected for the present year.

NOVA SCOTIA LEGISLATURE.—The Nova Scotia Legislature was opened yesterday by Lieutenant-Governor Archibald. The Speech from the Throne, after alluding to the improved commercial prospects and provincial railway matters, referred to the submission of a measure for the amendment of the local election law to that of the Dominion; the delegation sent to Fredericton to confer with the New Brunswick Government on the subject of Maritime Union; the amalgamation, on economic grounds, of the offices of Provincial Treasurer and Secretary; the progress of the temperance movement; and the Fisheries Award.

THE TEMPERANCE QUESTION.—An Ottawa report says: "A deputation, consisting of W. H. Howland, A. Morden, D. Miller, J. R. Dougal, E. H. Dewart, E. B. Reed, Oronotakis, J. C. McLaren, S. Stratton, and J. Oronotakis, members of the Dominion Alliance, waited on the Premier on the 21st relative to the proposed legislation on the liquor traffic. The deputation was introduced by A. H. Dymond, M.P. The Rev. Mr. Dewart and Mr. J. C. McLaren pressed upon Mr. Mackenzie the importance of immediate legislation on the temperance question, advocating the passing of a permissive bill. The Premier stated that the Government were disposed to further the interests of temperance people, and that some legislation in the matter would be introduced during the present session. The deputation then saw Hon. R. W. Scott, and he also promised that the matter should receive such attention as would meet with the approval of the Premier. The results of the interview seem to satisfy the deputation; but doubt is felt as to whether anything definite in the matter will be enacted this session.
